

GOVERNMENT OF INDIA
MINISTRY OF ELECTRONICS AND INFORMATION TECHNOLOGY
LOK SABHA
UNSTARRED QUESTION NO. 1230
TO BE ANSWERED ON 09.02.2022

PROCESS OF ISSUING AADHAAR CARDS

1230. SHRI RAKESH SINGH:

Will the Minister of ELECTRONICS AND INFORMATION TECHNOLOGY be pleased to state:

- (a) whether the process of issuing Aadhaar cards to the citizens of the country has been completed;
- (b) if so, the details thereof and if not, the reasons therefor;
- (c) whether the citizens have to wait for long for registration of Aadhaar cards and making corrections therein and if so, the details thereof;
- (d) whether the Government proposes to increase the number of machines at the registration centres to deal with the situation; and
- (e) if so, the details thereof?

ANSWER

MINISTER FOR STATE FOR ELECTRONICS AND INFORMATION TECHNOLOGY
(SHRI RAJEEV CHANDRASEKHAR)

(a) and (b):No, Sir.Aadhaar is the most important identity authentication platform used in India. The Aadhaar authenticates every resident of India who has voluntarily enrolled into Aadhaar. Its identity is not restricted to the citizens of the country. Any resident of India or a non resident Indian (NRI, holding a valid Indian Passport), can enroll to obtain Aadhaar Card. "Resident" means an individual who has resided in India for a period or periods amounting in all to one hundred and eighty-two days or more in the twelve months immediately preceding the date of application for enrolment. Currently UIDAI has enrolled over or more than 93% of the overall population (projected population 2021). The saturation report as on 31st December 2021 attached as **Annexure-I**. The enrolment for Aadhaar is an ongoing process. Considering the new birth of children every year and left out population of other age group, the requirement for new enrolment for Aadhaar is a continuous process.

(c):No, Sir. The Aadhaar saturation has reached 93% of the overall population (projected population 2021) as on today. The Aadhaar saturation amongst adult (> 18 years of age) has reached 99.82%. Accordingly, the requirement of Aadhaar related services has shifted to various updations (viz. name, address, date of birth, mobile number etc.) in existing Aadhaar and new enrolment of left out population, especially of children.

(d) to (e):The Government has taken the following initiatives to deal with the enrollment as well as updation in Aadhaar:

- i. At present, more than 52,000 Aadhaar centres run by various Banks, Post Offices, State Governments, CSC e-Gov etc. are functional across the country. There has been a substantial increase in the number of functional Aadhaar centres from 41,000 during the pre-COVID level of February 2020 to the present level.

- ii. Residents who have linked their mobile number with Aadhaar can update their demographic details (i.e. name, address, gender and date of birth) online through myAadhaar portal from the convenience of their homes.
- iii. In order to maximize the facility for updating mobile number in Aadhaar, UIDAI has onboarded India Post Payments Bank (IPPB) as Registrar, with target to onboard more than 1 Lakh postmen equipped with tablet/ mobile based devices to facilitate mobile and email update facility in Aadhaar. Once the mobile number is updated, residents can update their demographic details in Aadhaar online through myAadhaar portal. These IPPB operators will also do Aadhaar enrolment of children in the age group of 0-5 years.

State/UT wise Aadhaar Saturation				
31-Dec-21				
S.No	State Name	Total Population (Projected 2021)*	Numbers of Aadhaar assigned (LIVE)	Saturation % (LIVE)
1	A & N Islands	4,00,000	3,90,034	97.51%
2	Andhra Pradesh	5,27,87,000	5,14,48,812	97.46%
3	Arunachal Pradesh	15,33,000	12,51,110	81.61%
